SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a guidance for industry entitled “Failure to Respond To an ANDA Complete Response Letter Within the Regulatory Timeframe.” This guidance provides information and recommendations regarding the potential courses of action for an ANDA applicant after issuance of a CRL as well as the actions that FDA may take if the applicant fails to respond to the CRL. This guidance also identifies information that an applicant may submit in its request for an extension to respond to a CRL as well as a non-exhaustive list of factors that FDA generally intends to consider in determining whether such a request is reasonable.

This guidance finalizes the draft guidance entitled “Failure to Respond to an ANDA Complete Response Letter Within the Regulatory Timeframe” issued on September 29, 2020 (85 FR 61006). FDA considered comments received on the draft guidance as the guidance was finalized. Changes from the draft to the final guidance include adding an appendix that provides examples of factors that FDA could consider as the basis for concluding that an applicant’s request for an extension of time to respond to a CRL is reasonable. In addition, editorial changes were made to improve clarity.

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on “Failure To Respond to an ANDA Complete Response Letter Within the Regulatory Timeframe.” It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

While this guidance contains no collection of information, it does refer to previously approved FDA collections of information. Therefore, clearance by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3521) is not required for this guidance. The previously approved collections of information are subject to review by OMB under the PRA. The collections of information in 21 CFR 314.102 and 314.110 have been approved under OMB control number 0910-0001.
